

Piles & barriers

Piles and barriers made of wood are decorative and essential aids for marking off boundaries -- both in and outside of the city. They separate trafficked areas from quiet areas; they line parks and promenades and offer natural protection for landscaped zones, lawns, etc.

We manufacture our piles and barriers out of Douglas fir, oak, and black locust. These are very stable varieties of wood and have a high natural resistance to weathering.

We offer squared or round wood piles in boxed heart or pith-separated wood. Cutting the wood to remove the pith reduces the chance of splitting to a minimum. A variety of designs is available.

Piles & barriers

Wood: **Black locust natur**

Item no.	Item	
Pile Typ 1		
2221251	12 x 12 x 150 cm	pc
2221451	14 x 14 x 150 cm	pc
Pile Typ 2		
2221252	12 x 12 x 150 cm	pc
2221452	14 x 14 x 150 cm	pc
Pile Typ 3		
2221253	12 x 12 x 150 cm	pc
2221453	14 x 14 x 150 cm	pc
Pile Typ 4		
2241254	Ø 12 x 150 cm	pc
2241454	Ø 14 x 150 cm	pc
